Sibiu, SB 550316 • (+40) 756705851 • danvinersar98@gmail.com

## SUMMARY

Software Engineer with 5+ years of experience in developing scalable systems and simulation frameworks for ADAS. Proficient in modern C++, JavaScript, and CI/CD pipelines. Proven track record of championing TDD, Design Patterns, and Agile methodologies.

## SKILLS

**Languages:** C++ (C++17), C, JavaScript, TypeScript  
**Tools:** Visual Studio, VS Code, CMake, Git, GitHub, GitLab, Jira, WSL, AI Tools

**Frameworks & Libraries:** React, Next.js, Node.js, Google Test  
**Methodologies:** TDD, Agile/Scrum, Design Patterns

## CAREER TIMELINE

## WORK EXPERIENCE

- Senior Software Engineer — Aumovio, Sibiu**

Sep 2025 – Present

  - Developed simulation framework for Advanced Driver Assistance Systems (ADAS).
  - Joined a team developing a new framework, using C++ (backend) and JavaScript (frontend).
  - Collaborated with cross-functional teams using Agile methodologies.
  - Spearheaded Test Driven Development (TDD), ensuring robustness and reliability of codebase.
  - Implemented and enforced Design Patterns to enhance maintainability and scalability.
  - Demonstrated proficiency in modern C++ (C++17), leveraging simplicity, safety, and performance.
- Senior Software Engineer — Continental, Sibiu**

Sep 2022 – Sep 2025
- Junior Software Engineer — Ausy Technologies, Sibiu**

Dec 2020 – Jun 2021

  - Developed Bluetooth detection application with ESP32 series Espressif board.
  - Used C, Eclipse IDE, and Espressif extension; managed version control via GitLab.

## EDUCATION

- Master's Degree, Project Management**

Oct 2023 – Jul 2025

Faculty of Engineering, Sibiu
- Bachelor's Degree, Computer Science & Computer Engineering**

Oct 2017 – Jul 2022

Faculty of Engineering, Sibiu
